Our subsidiary Altek Alarko Elektrik Santralleri Tesis İşletme ve Ticaret A.Ş. ("Altek") had previously disclosed to the public that it had submitted pre-license applications for storage-integrated wind power plant (WPP) and storage-integrated solar power plant (SPP) projects within the scope of the "Regulation Amending the Regulation on Storage Activities in the Electricity Market" published on November 19, 2022.

In relation to the aforementioned applications, the Board decisions issued by the Energy Market Regulatory Authority of the Republic of Türkiye ("EMRA") have been duly notified to Altek, stating that the applications have been rejected pursuant to Article 16, paragraph four, subparagraph (a) of the Electricity Market Licensing Regulation, on the grounds that Turkish Electricity Transmission Corporation was unable to establish a positive grid connection opinion.

With respect to the applications subject to rejection, all available legal remedies, including recourse to administrative judicial proceedings, will be thoroughly assessed and pursued as deemed appropriate.

The English translation of this disclosure is provided in the annex hereto, and in the event of any discrepancy between the disclosure texts, the Turkish version shall prevail.

Respectfully announced to the public.

We proclaim that our above disclosure is in conformity with the principles set down in "Material Events Communiqué" of Capital Markets Board, and it fully reflects all information coming to our knowledge on the subject matter thereof, and it is in conformity with our books, records and documents, and all reasonable efforts have been shown by our Company in order to obtain all information fully and accurately about the subject matter thereof, and we're personally liable for the disclosures.
